

What use of limited, one-time funding could help your program or setting better withstand COVID-19 transmission and outbreaks into the future?

Capital improvements to shelter

Incentives for vaccinations would be helpful. We have an average vaccine rate of 0.13 or lower.

Hazard pay for direct service staff. Infectious disease training.

Facilities/capital improvements
vaccine incentives
emergency staffings
specifically designated isolation spaces

I agree- capital improvements to shelter and emergency staffing

purchasing TV's and headphones for each resident room so they can isolate in their rooms more comfortably.

Support to build other revenue streams for when shelters can't be at full capacity

Continued COVID-PTO funding to ensure staff are able to quarantine when needed, either with symptoms or after vaccinations

More motel / hotel ES voucher \$.

What use of limited, one-time funding could help your program or setting better withstand COVID-19 transmission and outbreaks into the future?

Maintain spaces in case of outbreaks. Isolation space.

Extended funds for Emergency Hotel/Motels that have been stood up to continue to respond to COVID19

PTO for staff would be super helpful as well - 2nd that option

Investment in affordable housing capital. If we have people in own homes they can isolate. We are not going to end homeless/isolate without homes

Extra staffing needed in case of outbreak

PTO for staff. Hotel vouchers for quarantine

Funding for short term medical residence for those not sick enough to remain in hospital but who need more attention/care for medical needs than just being in a hotel space by themselves provides

Shelter and housing stock capital canblast generations

Congregate Shelter

What use of limited, one-time funding could help your program or setting better withstand COVID-19 transmission and outbreaks into the future?

extra staffing for expected shortages, training & help
implementing a preparedness plan, containers for take-out
meals to close dining rooms, some kind of entertainment
(books, DVDs, puzzles) for when all common areas in the
facility is closed, PPE

What type of program do you operate?

If applicable, where is the program or setting you operate located (if multiple, pick a representative location)?
